

CITIZENSHIP PLAYMAT

WonderHere 
↓

Materials:

- Small toys, figurines, or Lego people

Directions:

Explore citizenship using our Citizenship Playmat!

Print out and laminate the playmat. Gather your child's small toys and figurines. These could include toys of people, animals, buildings, and nature scenery. Even action figures count! If your child doesn't have small toys like this, they can build them out of Legos, or you can take a short (and inexpensive) trip to your local Dollar Store!

Have your child play pretend using their toys and Citizenship Playmat as a setting. Ask them how what these toys would do in town if they were a good citizen. For older children, you can challenge them to make a stop motion video of their pretend play.
