

# NATURE GUESS WHAT

**Follow the directions in the Unit Study to create your Guess Who Game Board.**

**Print out two copies of the following pages so that each player can have their own set of cards.**

## **How to Play:**

1. Players determine who goes first by playing one round of rock, paper, scissors.
2. Player One will use the information on their Nature Cards to ask a yes or no question to Player Two, in order to determine Player Two's Mystery Nature Element.
3. Example questions are: *Is your nature element an animal? Is your nature element a plant? Is your nature element green? Is your nature element soft? Does your nature element grow on trees? Does your nature element fly?*
4. As both players go back-and-forth answering questions, they will use deductive reasoning to remove cards that do not fit the description of their opponent's Mystery Nature Element until they can guess who it is.
5. The first player to guess correctly wins!

# NATURE CARDS

**Sunflower**

**Pine Cone**

**Oak Tree**

**Acorn**

# NATURE CARDS

**Snake**

**Bird**

**Butterfly**

**Rabbit**
