

The Rock Cycle Song

One, two, three o'clock, four o'clock, ROCK
Five, six, seven o'clock, eight o'clock, ROCK
Nine, ten, eleven o'clock, twelve o'clock, ROCK
We're gonna ROCK around the cycle tonight.

Metamorphic rock is caused by heat,
Pressure, too, will make it scream.
We're gonna ROCK around the cycle tonight
We're gonna ROCK, ROCK, ROCK, 'til broad daylight
We're gonna ROCK, gonna ROCK, around the cycle tonight.

Sedimentary rock is formed by parts
of crushed up rock pressed together so hard.
We're gonna ROCK around the cycle tonight
We're gonna ROCK, ROCK, ROCK, 'til broad daylight
We're gonna ROCK, gonna ROCK, around the cycle tonight.

Igneous rock is lava that cooled down
from a volcano that's shaken the ground.
We're gonna ROCK around the cycle tonight
We're gonna ROCK, ROCK, ROCK, 'til broad daylight
We're gonna ROCK, gonna ROCK, around the cycle tonight.
