

SALT SUBJECTS

AND PEPPER

PREDICATES

WonderHere[?]
↓

Directions:

Prep: Cut out the task cards. Add 5 subjects and 5 predicates to the empty boxes. Create two piles, one for the subjects and the other for the predicates, and place the cards face down. If you would like, you can label the piles.

Choose one card from each pile. Read the subject card followed by the predicate card to create a complete sentence.

Using the recording sheet on page 4, write the sentence in the corresponding column.

Extension:

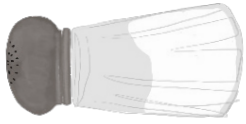

For two or more players

Place all the task cards face down. Taking turns, flip over two cards at a time in attempt to make a complete and factual sentence. If they are not a match, flip them back. If they are a match, keep them. The player with the most pairs wins!

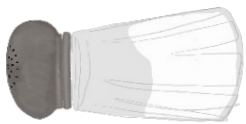

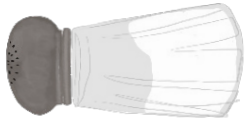

A blanket

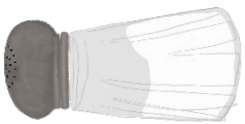

His father

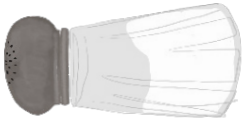

His yacht

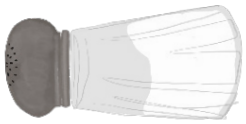

The dog

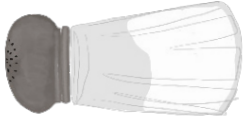

A ladybug

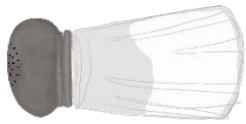

An all-star

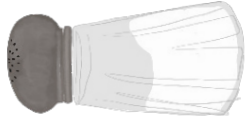

Her cousin

Her backpack

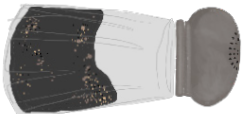

The building

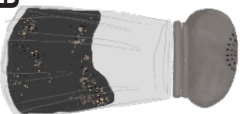

The ostrich

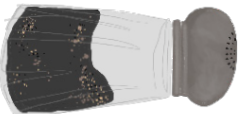

was yellow
with polka dots

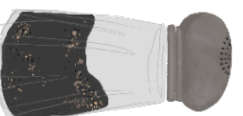

enticed everyone
with a yummy aroma
